

Watercolour Squares

Step 1

Choose a subject for your painting. Good options are:

- Flowers
- Foliage (trees, ferns, branches)
- Houses or buildings
- Vases, jugs, bowls
- Fruit

Draw a 1 inch (or 2 cm) border. Draw the subject *lightly* on your paper.

Step 2

Draw a square near the centre of your subject. Next, draw **at least two more squares**. How you position these squares is up to you. You may choose to overlap the squares or to draw them larger and larger. You may also choose to draw more squares.

Step 3

Begin painting!
