

CONTRAST

CONTRAST can help create a FOCAL POINT in a work of art by placing CONTRASTING ELEMENTS next to each other. When placed next to each other, CONTRASTING ELEMENTS will grab your attention.

1. SHAPES

Placing one different **SHAPE** in a group of shapes that are the same will make the **CONTRASTING** shape stand out.

2. BLACK & WHITE

Black and white are so different in value they will **CONTRAST** against one another when placed together.

3. COLOR

COMPLEMENTARY COLORS will **CONTRAST** when they are placed next to each other. Red/green, blue/orange, and yellow/purple are complementary colors.

4. PATTERN

Including one plain **PATTERN** in a group of patterns or one patterned object in a group of plain objects will make them **CONTRAST**.
